

PRATHMESH JOSHI

Team Lead & Sr. Full Stack Developer

+91 87350 52299 • prathmesh.joshi.009@gmail.com • [LinkedIn: prathmesh-joshii](#)

PROFESSIONAL SUMMARY

- Full-stack developer with **5 years of experience** delivering web applications using **Angular, React, Next.js, Node.js, and NestJS** in real-world production environments.
 - Strong track record of building **reliable, scalable, and secure solutions** across SaaS platforms, automation-driven systems, and integration-focused applications.
 - Experienced in **iterative Agile delivery**, contributing to sprint execution, requirement clarification, and on-time releases using tools such as Jira.
 - Hands-on **Team lead exposure**, supporting developers through **code reviews, design discussions, and problem-solving**.
 - Experience with **CI/CD pipelines, cloud services, and workflow automation**, enabling faster deployments and reduced operational overhead.
-

TECH STACK & ENGINEERING TOOLS

- **Technology Stack:** Angular, React, Next.js, TypeScript, JavaScript, Node.js, NestJS, Express, REST APIs, WebSockets, Capacitor
 - **Data & Security:** MongoDB, PostgreSQL, MySQL, Supabase, Firebase, Keycloak, OAuth, Role-Based Access Control (RBAC)
 - **Cloud, DevOps & Automation:** AWS, Azure (fundamentals), CI/CD, Docker, n8n, Zapier, Lovable, Make
 - **Delivery Practices & Tools:** Agile/Scrum, ClickUp, Jira, Git, Asana, Monday, GitHub, GitLab, Code Reviews, Modular Architecture, API Design
 - **Integrations:** Stripe, PayPro, QuickBooks, Box, LLMs with RAG, Passport, FileOpen, Autodesk, Google Maps, Meta APIs, X APIs
-

PROFESSIONAL EXPERIENCE

- Freelance Sr. Full Stack Developer & Automation Expert**, Self-employed March 2026 - Present
- Develop full-stack applications, integrate third-party APIs, and build workflow automations for client projects.
 - Design and implement frontend interfaces, backend services, and databases based on business requirements.
 - Build automated workflows using n8n, Zapier, and custom scripts to connect systems and reduce manual work.
 - Manage technical planning, implementation, troubleshooting, and client communication throughout project delivery.

Senior Full Stack Developer & Team Lead, Blurbee Solutions

December 2023 - February 2026

- Architected and delivered **scalable full-stack applications** using Angular, Node.js, REST APIs, and cloud-based services.
- Owned **end-to-end delivery of core modules**, including frontend architecture, backend services, database design, and third-party integrations.
- Provided **leadership** through code reviews, design discussions, and mentoring while remaining actively hands-on.
- Designed and implemented **automation workflows, schedulers, and background jobs** using **n8n, Zapier**, and **server-side services**.
- Integrated **external systems**, including payment gateways, e-signature platforms, Storage tools like Box, and external APIs.
- Worked with **cloud infrastructure and CI/CD pipelines** (AWS, Azure fundamentals) to support reliable DevOps.
- Collaborating closely with product managers, the development team, QA, and stakeholders to ensure timely and high-quality releases.

Software Developer, La Net Team Software Solutions

December 2020 - November 2023

- Worked on projects like a **video streaming platform**, a Learning web application, and **Microservices** of AI based process completion service web app
- Performed **data scraping** of YouTube and Instagram and worked with **Google, YouTube**, and **Google Maps APIs**
- Worked with **AWS S3** Bucket for media storage
- Made **Cron jobs** with Action Hero and Firebase
- Implemented **SSO** with **Passport** as a microservice
- Attended **daily stand-up meetings** with the client
- Full Stack Development of Learn web application of Dimensions Data with the use of Angular and Node.js using **Cloud Firestore** and **Express.js**, build and deploy with GitHub actions
- Managed the status of all bookings with different approval roles.
- Worked on **workday SOAP services, Hellosign eSignature**, Virtual Card **PayCentral**, and **Xero** integration

KEY PROJECTS

Paradigm - Document Management System | Senior Full Stack Developer

As a full-stack developer, I designed the database and created pixel-perfect responsive designs. I developed both the front end and back end of the application. I Integrated Stripe for the subscription management and add-ons. Developed AI APIs and implemented Optical Character Recognition (OCR) functionality to fill all details with the single click.

Fancy Fleet - Fleet Management System | Angular Developer

As a Senior Angular Developer, I am responsible for designing pixel-perfect UI and developing the frontend application. I integrated all the APIs and third-party packages

workscreen.io - AI-Enabled Hiring Platform | Senior Full Stack Developer

As a Senior Angular Developer, I am responsible for designing pixel-perfect UI, designing database structure, and developing the frontend application. All the required APIs creation, Cron jobs, and integration of the third-party APIs and packages. I integrated Paypro Global for the payments and to provide the subscriptions.

G&S Accountancy - Accounting & Compliance Platform

Senior Full Stack Developer & Automation Engineer

As a Senior Full Stack Developer and Automation Engineer, I led a team of 4 developers to design and deliver a secure, role-based accounting and compliance automation platform for a US-based accounting firm. I owned the system architecture, technical decision-making, and end-to-end delivery while actively contributing to frontend, backend, database design, and automation workflows. The platform streamlined client communication, document management, and regulatory compliance at scale.

EDUCATION

Masters of Computer Applications	2020 - 2022
Dharmsinh Desai University, Nadiad, Gujarat	
Bachelor of Science - Computer Science	2017 - 2020
M.B Patel Science College, Anand, Gujarat	

CERTIFICATION & PROFESSIONAL DEVELOPMENT

Product Management Fundamentals – Udemy	March 2024
Become a Product Manager Learn the Skills & Get the Job - Cole Mercer, Evan Kimbrell	

ACADEMIC FOUNDATION
